NEEL 52: TRIMARAN'S EXCELLENCE AWARDED MULTIHULL OF THE YEAR 2025

A few weeks ago we learned that Cruising World Magazine had nominated the NEEL 52 for Multihull of the Year 2025.

The results are in! The NEEL TRIMARANS teams are very proud to announce that the NEEL 52 has been awarded the prize for "Multihull of the Year over 50 feet".

This award recognizes more than just a trimaran: it's a vision, a heritage, and a passion for excellence at sea.

"Owners don't just get their own stateroom aboard the Neel 52 trimaran. They get a two-story suite with a head, shower and private office located aft in the starboard float, and a stunning view from the berth located on the bridge deck. The living space on this boat is tremendous." says **Mark Pillsbury**, jury member.

With its modern, sleek silhouette, the NEEL 52, designed by Marc Lombard Yacht Design Group, incorporates all the assets that have made the range so successful, while embodying the art of living at sea.

This trimaran pushes back the limits of comfort and innovation: *"It's the logical evolution of an iconic company"* says jury member **Herb McCormick**.

This award is the fruit of the hard work and passion of our teams, and we can't wait to see our customers and future customers explore the world aboard this unique boat. In search of freedom, dreams and adventure.
